in addition, it contains 55 tables, comprising over 100 indicators of monthly,
This database was developed and launched in 2009, and was called the "UN Secretary-General's Database on Violence against Women". In 2016, in accordance with the adoption of the 2010 Agenda for Sustainable Development, UN Women updated and redesigned the database, and relaunched it as the "Global Database on Violence against Women". UN Women serves as the secretariat for the database. The database is designed to:
• Provide easy access to comprehensive and up-to-date information on measures undertaken by governments to address all forms of violence against women.
• Increase opportunities for exchange of experiences in violence against women.
• Provide a "knowledge-base" for effective policy responses to prevent and address violence against women; and
• Encourage the further collection, availability, use, and dissemination of data and information on violence against women. For more analysis of such data, see http://www.globelaw.unwomen.org

United Nations Treaty Collection (UPT)
The United Nations Treaty Collection (UPT) provides a wealth of information on the texts of all international agreements and protocols, all in full text. The UPT contains the complete text of the UN Charter, all 31 five permanent members of the Security Council, all 193 member states, all 44 UN agencies, programmes, funds and centres, all 15 regional bodies of the UN, all 29 special UN bodies, all 58 specialized agencies of the UN, all 166 UN personnel, with over 130,000 pages and 4.5 million messages. It also includes 10,340 e-book titles, 46,530 chapters, 116,590 tables and graphs, 5,000 articles, 4,690 multilingual summaries, 4,830 working groups. It also includes 10,340 e-book titles, 46,530 chapters, 116,590 tables and graphs, 5,000 articles, 4,690 multilingual summaries, 4,830 working groups. It also contains 55 tables, comprising over 100 indicators of monthly, quarterly, and annual data on a variety of subjects for most of the countries and areas of the world, illustrating important economic long-term trends and developments. For more information, the UN has published the United Nations Statistics Division and previously by the League of Nations.

The International Labour Organization (ILO) – Statistics and Databases
Labor statistics play an essential role in the efforts of member states to achieve decent work for all and for the ILO’s support of these efforts. These statistics are needed for the development and evaluation of policies related to employment, labor and social protection, and are also an important tool for information and analyses, helping to increase understanding of common problems, explain actions and mobilize interest. These statistics also form the basis for achieving the ILO’s Strategic Outcomes:
• Legal databases: Labor laws, standards, policies, and legislation databases
