Tips for Mom and Dad!

- Don't let the water run while brushing your teeth.
- Flush the toilet only when necessary.
- Never use the toilet as a wastebasket.
- Run the washing machine or the automatic dishwasher only when you have a full load.
- Keep your showers down to five minutes or less.

Good Water-Saving Habits

- Fill basin, rinse briefly: 3.7 liters
- Wet, brush, rinse briefly: 0.5 liters
- Wet down, soap up, rinse off: 19 liters
- Fill basin, rinse briefly: 3.7 liters
- Soak in the sink, soap up, rinse briefly: 19 liters

Be sensible!

- Full cycle: 57 liters
- Low-level: 6 liters
- Tap running: 7.5 liters
- 19-38 liters per minute
- 136-227 liters

Hand Washing

- Teeth Brushing
- Showering
- Tub Bathing
- Shaving
- Dish Washing
- Automatic Dishwasher
- Clothes Washer
- Garden Watering
- Toilet Flushing
Connect the Dots

Who found the treasure?

Did you know that...

- Octopuses do not have bones.
- An octopus has a secret weapon. It has a sack full of ink, which the octopus releases to hide from its enemies.

Tips for Mom and Dad!

- Don’t let the water run while brushing your teeth.
- Flush the toilet only when necessary.
- Never use the toilet as a wastebasket.
- Run the washing machine or the automatic dishwasher only when you have a full load.
- Keep your showers down to five minutes or less.

Don’t Waste Water!

Can you recognize the Bad Habits?
Don't Waste Water!
Can you recognize the Bad Habits?
Sudoku

Can you solve the Ocean Sudoku?

1. Cut out the pictures of the sea creatures from the insert.
2. Paste the pictures in the empty blocks, so that only one of each creature is present in every row, column and box.

Did you know that…?

- Though starfish live underwater they are not fish. They do not have gills, scales, or fins like fish do. While fish swim using their tails, starfish have tiny tube feet to help them move.

Ocean Sudoku:

```
 1 2 3
4 5 6
7 8 9
```

- Cut out the pictures of the sea creatures from the insert.
- Paste the pictures in the empty blocks, so that only one of each creature is present in every row, column and box.

Coloring by Numbers

Fish in a bowl!

1) Red  2) Blue  3) Yellow  4) Green  5) Orange  6) Purple  7) Pink

Did you know that…?

• Fish breathe water.
• Fish sleep with their eyes open because they do not have eyelids.
• Water is the only substance on Earth that can exist in all three states of physical matter: gas, liquid, and solid.

Fish in a bowl!

Fish breathe water.

Fish sleep with their eyes open because they do not have eyelids.

Water is the only substance on Earth that can exist in all three states of physical matter: gas, liquid, and solid.
Ground water seeps back to the surface to flow out.

The same water goes around and around the Earth in the water cycle.

The warmth of the Sun makes water evaporate.

Water evaporates (transpires) into the air from plants and trees.

Clouds are made of water vapour.

When it is cold, rain turns into snow.

As the air cools, water vapour (gas) changes into water droplets (liquid).

Water freezes into ice and snow on mountains.

Water flows down rivers to the ocean.
Ground water seeps back to the surface to flow out.

Clouds are made of water vapour.

When it is cold, rain turns into snow.

As the air cools, water vapour (gas) changes into water droplets (liquid).

Water freezes into ice and snow on mountains.

Water flows down rivers to the ocean.

Ground water seeps back to the surface to flow out.
Did you know that...?

- Frogs belong to a group called amphibians; they are born in water, live on land and return to water to breed.
- Some frogs have long and sticky tongues that they use to catch bugs.

Test Your Observation

Can you spot 10 differences between the two pictures?

Did you know that...?

- A shrimp’s heart is in its head.
- A seahorse does not have a stomach or teeth.
- Both starfish and octopuses can regenerate lost arms.

Origami
Make your own pet dolphin!

Did you know that…?
- Dolphins have 100 teeth. They do not use them for chewing food, but only to catch fish.
- Dolphins have two stomachs: one for storing food and one for digesting it.

1. Fold and unfold in half both ways then turn over.
2. Fold and unfold diagonally in half both ways.
3. Collapse along existing creases to reach figure 6.
4. In progress.
5. Further in progress.
6. Now the base has been built.

7. Fold the front flap as illustrated.
8. Fold along the dotted line.
9. Fold along the dotted line to make the dorsal fin.
10. Fold along the dotted line.

11. Pleat.
12. Reverse fold.
13. Turn the inner flap up.

14. Shape the dolphin to adjust folds.
15. Turn over.
16. Your pet dolphin is now ready to swim away.
Color, Cut and Paste

Cut out the pictures from the opposite page and paste them in your favorite place.

Good Water-Saving Habits

- Fill basin, rinse briefly: 3.7 Liters
- Wet, brush, rinse briefly: 0.5 Liters
- Wet down, soap up, rinse off: 19 Liters
- Fill basin, rinse briefly: 3.7 Liters
- Soak in the sink, soap up, rinse briefly: 19 Liters

Do full loads only:

- Full cycle: 38-57 Liters
- Low-level: 6 Liters

Be sensible:

- Tap running (Hand Washing): 7.5 Liters
- Tap running (Teeth Brushing): 7.5 Liters
- 19-38 Liters per minute (Showering): 38-57 Liters
- Full cycle (Toilet Flushing): 136 Liters
- 23 Liters (Tub Bathing)
- 3-5 Liters (Shaving)
- 76 Liters (Dish Washing: Automatic Dishwasher)
- 19-38 Liters per minute (Clothes Washer)
- 76-151 Liters (Garden Watering)
